I've had zero trouble with the mower. The owners manual does specify hitting the grease points every couple hours of use which is easy to do. I may let it go a little longer than 2 hrs since I don't ever run the machine at rated 540 RPM. Below is a link to the Gaspardo Sickle Bar Owners Manual which may answer some more of your questions.

The sickle bar mower was the first mechanical mower and was originally pulled by horses. The design is much the same today as it was then. The mower works with a reciprocating action, moving triangular blades back and forth between stationary guard fingers.

### **TX59 Subcompact Sickle Bar Mower With Mechanical Lift by ...**

Sickle bar mower tractor attachments utilize a reciprocating blade, typically 7' to 9' long, which sits low to the ground. The blade effectively cuts grass at a predetermined height of your choosing, and is known for its accuracy and uniformity. Most sickle bar mowers can mow at angles up to 90-degrees up and 55-degrees down.
