The Model 125 or S-125 was introduced by Harley-Davidson in 1947 as a 1948 model. The 125 cc two-stroke engine produced three horsepower, which was sent through a three-speed foot-shift transmission. The front suspension used girder forks suspended by large rubber bands, which proved to be problematic because they broke and were unavailable from H.D. after the early 1960's.
