I have Honda GC190 6.0 engine that powers a power washer. It starts and runs well until I pull the trigger on the water gun. It will then run for a few minutes and then shut down. If I try to restart it it is damn near impossible to pull. After it cools down it will run OK again and then stop. Pump oil and engine oil are at required levels.

Honda's GC and GS engines use the world's first small engine internal timing belt, designed to last the lifetime of the engine. Small engine timing belts are usually external and are subject to wear caused by dirt. Honda's internal timing belt runs in oil, eliminating the need for conventional drive gears. This design:
