SOLVED: Holden viva valve timing diagram - Fixya

Hello, We have a Holden viva wagon manual. We had it serviced at a Holden zupps Mt gravatt for the 60K km period, that was the timing belt, they found number of other problems as most badged service centres do.

We have a Holden viva wagon manual. We had it serviced at ...

In cold weather, the Holden Viva's 'check engine' light may illuminate and the engine may stumble, hesitate or lack due to a build-up of ice in the manifold absolute pressure (MAP) sensor port. The idle may rise to 2000rpm when coming to rest for manual models, idle roughly or stall for automatic models when the engine is cold.

Engines & Components for Holden Viva for sale | eBay

My 2006 Holden Viva has a number of engine problems, all of which have been investigated by Holden without success. The engine will idle at high revs then go back to the revs, the engine malfunction light will come on maybe for a day or so and then not come on for months, it surges when travelling at 80-100 km/hr and these become more noticeable when travelling up a hill.

Ask Smithy Xtra Holden Viva engine problem - FAQ | CarsGuide

Holden service keep saying its wear and tear and I keep challenging, at 70,000km no self respecting car should need the front end of the engine replaced. 3 months out of my 6 year extended warranty (which you of course pay extra for) the problems started, and Holden couldn't care less.
