I've been fiercely evangelical about Project Fi since Google launched their cell phone service a few years ago. The plans have saved me a ton compared to a legacy mobile carrier, the un-throttled international coverage has been life-changing, and I adored the functionality and photo quality of my Pixel 2.. And because I've been so enthusiastic about the service, I think it's important to ...

Google Earth is a computer program that renders a 3D representation of Earth based primarily on satellite imagery. The program maps the Earth by superimposing satellite images, aerial photography, and GIS data onto a 3D globe, allowing users to see cities and landscapes from various angles. Users can explore the globe by entering addresses and coordinates, or by using a keyboard or mouse.
