I have not actually previewed this book, but I did want to illuminate why it may be useful for students who struggle with math. Math is the number one content area that drives literate students (those who can actually read) to drop out of high school.

Geometry: Concepts and Applications, Student Edition ...

An important goal of math instruction is for students to see the relevance of math concepts to everyday life. A student's progression from a basic understanding of a concept to a particular level of competency in applying that concept in real-life situations is strongly influenced by abilities in attention, memory and higher order thinking.
