The first US state tax on fuel was introduced on February 25, 1919 in Oregon. It was a 1¢/gal tax. In the following decade, all of the US states (48 at the time), along with the District of Columbia, introduced a gasoline tax. By 1939, an average tax of 3.8¢/gal (1¢/L) of fuel was levied by the individual states.

Fuel taxes in the United States - Wikipedia

The Tank Mark VIII also known as the Liberty or The International was an Anglo-American tank design of the First World War intended to overcome the limitations of the earlier British designs and be a collaborative effort to equip France, the UK and the US with a single heavy tank design.. Production at a site in France was expected to take advantage of US industrial capacity to produce the ...
