I've been using the GIMP extensively since before Y2K, most notably in support of my site wpclipart.com. Since the release of GIMP 2.4 in October, 2007, I have been updating and enhancing and writing scripts, and posting them online for others to use.

Gimphelp - GIMP scripts and patterns and stuff...

Pandora is a GIMP script which helps in stitching together multiple images to make a panorama. It does not find image matches automatically, but it does automate the most tedious part of making a panorama: creating a large image in which your component images are loaded as separate layers, with initial spacings and layer masks.
