## **Affordable Go Karts - Govenor Removal**

With high revs, higher torque and hp are certainly expected. It depends on what clutch you are using. I am using a max torque box stock clutch and it's running fine on the GX200. However, to get the most out of your engine, a disk clutch is the way to go. I would recommend a bully clutch or a cheetah clutch to deal with higher power and torque.

## **GX200 Modifications | Go-Kart Mods**

First remove the following: Gas tank Muffler Valve cover Spark plug Air filter box Now you need to place the engine at top dead center (TDC). To do this, grab the crank where the clutch would mount and turn the engine over. You will see the valves open and close while you are turning the engine over. Look into the spar
