Introduction to Probability 2nd Edition Problem Solutions

[Grinstead-Snell, Introduction to Probability 1] Six women check their hats, and the hats are returned in a random manner. Let E_j be the event that the j th woman gets her own hat back. What is $\Pr(E_j)$? Solution: The sample space Ω has size $6!$ because it is the set of all permutations of the six hats. Suppose $j = 1$.
