As many of you know, I used to be an engineer (computer hardware) before I quit my corporate job to become a stay at home dad/blogger. Many readers come to this blog, Retire By 40, through the Why I gave up my engineering career post. It seems like there are quite a few engineers out there who are thinking about leaving their careers to do something else.

Why Engineers Should Plan For Early Retirement career change

The term hardware agnostic in IT is applied to the methodology where reliance on hardware or a specific platform resource is not required. Hardware-agnostic systems do not require any modifications to run on a variety of devices.

It's easy to customize with duties and responsibilities when hiring for a support role. Similar job titles include Customer Support, Software Support, Desktop Support, Help Desk and IT Support Engineer. Technical Support Engineer Responsibilities

Technical Support Engineer job description template | Workable

Engineering has existed since ancient times, when humans devised inventions such as the wedge, lever, wheel and pulley. The term engineering is derived from the word engineer, which itself dates back to 1390 when an engine'er (literally, one who builds or operates a siege engine) referred to "a constructor of military engines." In this context, now obsolete, an "engine" referred to a military ...

Step 3: Now, to make the front and back, drill 2 pocket holes in both ends of the 1x2x20" boards. (When screwing and gluing the boards together I would suggest using your ¼" spacer from step 1 to support the 1×2 board on the outward facing side; this should leave you with the ½" of space needed for your back panel.) Glue and screw together the 1×2's to the 2×2 corner posts, as ...

DES-6321 Specialist – Implementation Engineer, VxRail Appliance Exam Exam Description Duration 90 Minutes (60 Questions) Pass Score: 63 Practice Test

Specialist Implementation Engineer, VxRail Appliance Version 1

We recently had a little problem with networking where multiple servers would intermittently lose network connectivity in a fairly painful-to-resolve way (required hard reboot). This has been going on for about two weeks, seemingly at random, on different servers. No particular pattern that we could discern to it. After some digging into it, we saw that the switch was reporting 100 Mbps for ...
